

# Type-K Thermocouple Probes

## **11" Heavy Duty Penetration Probe with 3' lead, Part#: TP-FK12M**

This heavy duty probe with 1/8" diameter tapered shaft resists bending for easy penetration in semi-solids and liquids.

For more information and pricing, please click [here](#).

## **4" Temperature Probe General Purpose, Part#: TP-FK11M**

This general purpose probe has a 4" sealed stem for immersion into liquids, gels and semi solids.

For more information and pricing, please click [here](#).

## **4" T-Handle Fast Response Probe with Reduced Tip, Part#: TW-4TH**

Heavy Duty T-Handle Penetration Probe with 1/4" diameter stem for even tougher use. Shaft reduces to 3/16" with a conical point for easy insertion and fast response.

For more information and pricing, please click [here](#).

## **8" Plug Mounted Probe, Part#: TP-FK13M**

Sharp penetration probe is mounted directly to an industry-standard miniature thermocouple plug. No cable included. Plug this probe directly into most thermocouple meters for a one-handed thermometer (meter/probe combination). Probe tip is swaged to a smaller diameter then sharpened for fast measurements and easy penetration.

### **8" Temperature Probe General Purpose, Part#: TP-FK14M**

This general purpose probe has an 8" sealed stem for immersion into liquids, gels and semi solids.

For more information and pricing, please click [here](#).

### **45 Degree Surface Probe, Part#: TP-CK22M**

This Fast Response contact Surface probe has a 4" shaft with a 45 degree angle swivel head sensor. Great when taking temperatures on flat and uneven surfaces.

For more information and pricing, please click [here](#).

### **4" Reduced Tip Probe, Part#: TP-FK21M**

This handheld probe with a 1/8" shaft and reduced 1/16" (1.5mm) needle tip gives you the exact same high speed probe stem as the Thermapen uses. It's the perfect combination of speed and durability. You get 3 second food or liquid readings. The reduced tip makes a small hole and is perfect for meats and general purpose kitchen use.
